**Hat Pins**

Made out of  
Real  
Roses

**Real Rose Hat Pins**

It does not seem possible, yet it is true, that these pins are made from real roses, and changed into metal by a special process. This discovery is without doubt one of the most ancient Egyptian. They are the only ones here in all of hat pins. No two are alike. Made to order to the prevailing fashions in millinery. We make the following prices:

\$1.50, \$2.00, \$2.50,

\$3.00, \$3.75, \$4.50.

Boxed and sent about three. Don't fail to come in and see them. These are the genuine DELAMOTHE Real Rose Hat Pins.

We have just received 25 dozen new winter caps finished in the latest shapes, of catchy tweed patterns, navy blue and black. These caps are fitted with the finest quality of plucked fur bands. Prices from \$1.75 to \$2.00. Come in and see this excellent selection of winter caps. Those left of the travellers samples of fur stoles, consisting of ladies and children's stoles of different designs, are being offered at the same attractive values. There are no two of these stoles alike. You cannot afford to miss this opportunity.

## LIBERALS WIN BIG MAJORITY

LAURIER GOVERNMENT RETURNED  
BY REFERENDUM.

## MCDONALD DEFEATED

Government Majority in New Parliament Nearly as Great as in Last—Donald Carries The Pass but Was Defeated on the Prairie.

Monda's election resulted in another great victory for the government. Sir Wilfrid Laurier which will have a majority in the next parliament almost as great as in the last. Complete returns are not at hand at the time of going to press but it is definitely known that the government's majority will not be ten less than in the last parliament. Locally, there is little doubt that John Herron has been returned by a small majority. A number of small polls are yet to be heard from which may, it is possible reverse the result but it is not to be expected they will do so.

Mr. McDonald, the liberal can i date, carried The Pass by a good majority; the seven polls giving him a majority over Herron of 66. He also carried Pincher City and his home town, Claresholm by small majorities but by far the greater number of polls on the prairie gave majorities for Herron.

Harrington, the socialist candidate, polled the largest vote in The Pass, followed by Coleman, Bellevue and Hillcrest and securing a plurality in the seven polls of 13. He polled a sufficient vote on the prairie to save his deposit. The vote in the Pass was as follows:

	Har.	Her.	McD.
Coleman	153	81	108
Blairmore	13	64	51
Frank	39	61	64
Bellevue	64	36	36
Lillooet	12	32	69
Hillcrest	3	8	3
	343	284	350

In Macleod constituency, at the time of going to press Herron leads by about 175 with eleven polls to his four. There are in fair outlying districts and may not be for some days. It would be possible for the Herron lead to overcome in these polls but there is no consideration to any likelihood of it. On the contrary, judging from the result in most other rural precincts, Herron's majority is more likely to be increased.

A report has reached Frank that there is a possibility of the election in this riding being postponed on the ground of illegal voting at Macleod where it is said the C. H. R. ran in about sixty employees having no legal right to vote who took the oath and voted. No definite decision has been made however as to whether a protest will be made.

As to the result in the province, the liberals get four seats and the conservatives three. The four northern constituencies returned Minister of the Interior Frank Oliver, Dr. McIutre, Dr. Clark and Mr. White while the three southern constituencies elected the conservatives, Herron, Margrave and McCarthy. Mr. Oliver's election was by the very large majority of 2600.

In the general result, the liberal government carries every province in the dominion except Manitoba and possibly British Columbia where two elections are yet to be held. The returns at this time show a majority for the government of 56 in the house with 17 still to do. Of the latter, there is little doubt that the government will secure its share with the resultant probability that the ultimate majority will not be more than one or two below the majority in the last house. Following is a summary of the result by provinces as far as is known definitely at this time:

Lbs. Cons. Doubt.

New Brunswick	12	2
P. E. I.	3	1
Manitoba	2	8
Saskatchewan	8	1
Alberta	4	3
R. C.	1	3

## COUNTRY TO DAY IS NOT BARREN LAND

That much of the hitherto unknown country through which the proposed indoor Bay Railway will traverse on its course north and east from the present outposts of settlement on the Saskatchewan towards the terminus at the mouth of the Churchill river, is capable of sustaining a farming population is the opinion held by William McInnes, of the geological survey department, who has just returned from his third season's exploration in that vast iron land.

Mr. McInnes had already examined the country along the Nelson river from Split Lake southwesterly to the Pass and had established the existence of a clay belt suitable for cultivation. It was in order to ascertain how far north this belt extended that this season's exploration was undertaken and Mr. McInnes is now satisfied that the belt runs north from that basin to the Churchill river an average distance of about 108 miles.

As to the mineral wealth of the country, Mr. McInnes says that the only locality that promised development was at Lac Laronge, where some 30 or 40 mining claims have been taken up by prospectors who found copper, gold and silver. Mr. McInnes has brought back with him several samples from these claims, but until they have been assayed he can express no opinion as to their value.

Is pleasant message.

This is the cheery message coming to us by Sir Thomas Shaughnessy president of the C.P.R. in presenting the twenty-seventh annual report of the company's affairs at the meeting of the shareholders in Montreal on Wednesday last: "The crop just harvested is beautiful and of excellent quality, and we have every reason to believe that there will be an early return of sound and active business." This expert opinion on the outlook will be no less gratifying to the shareholders of the great transportation company than to the people of Canada as a whole.

Old Timer Dead.

Angus Ruiz Sr., one of the old time residents of Frank, passed away Tuesday morning after a lingering illness arising from an organic affection. Mr. Ruiz had been a resident of Frank for six years and was for a long time an employee of the coal company. He was the father of a family of three sons and five daughters, all of whom survive him. The wife and mother was buried four years ago. The children are: Mrs. Wrightley and Mrs. Jas. Boyd of Frank, Mrs. M. Miron and Mrs. W. M. Alexander of Lethbridge; Mrs. A. N. Fraser and Angus Jr., John and James of Seattle. The deceased was 69 years of age. The funeral was held Wednesday morning at 10 o'clock.

Big game plentiful.

Two gentlemen named Pratt and Cameron of New York who came out to British Columbia for a big hunt, are reported to have had a very successful hunt in the head waters of the upper Kootenay valley of the valley of the sheep and other game. Mr. Cameron, who came out to Cranbrook to take the train for New York stated to the Herald of that place that elk and moose are to be seen in plentiful numbers, owing to the fact that they are protected and may not be killed during any season. He also stated that deer, sheep and goats are very plentiful and that he and his partner had excellent sport. They secured their full number of sheep heads, one of which was of enormous size.

## MINER KILLED AT BELLEVUE

ROCA MARRAPODI CAPTURED BY LAW  
OF COAL IN CROSSCUT.

## WAS WELL KNOWN

Driving Crosscut Through Pillar When Part of Roof Fell—Called to Partner That His Friend Had Come and Expected—Popular Among Workmen.

A sad accident occurred in the mine of the West Canadian Collieries at Bellevue Saturday evening last which cost the life of Roca Marrapodi, one of the best known and most popular men among the foreign born miners of the district. He was caught by a fall of coal and almost instantly killed.

Marrapodi with his partner, Ralph Pasquali, was engaged in driving a crosscut through a pillar. Marrapodi was working alone in one end of the crosscut and Pasquali in the other. Marrapodi was trimming down when suddenly a great slab of coal came away from the roof without the slightest warning. It fell upon the unfortunate workmen and buried him beneath it.

Pasquali, at the other end of the crosscut, heard his partner call out: "I am finished" and ran to his assistance but Marrapodi was dead when Pasquali reached him. Pasquali at once gave the alarm and assistance came quickly. The body was removed and Coroner Pinkney summoned. An inquest was held Tuesday, the evidence at which, brought out the facts as stated.

Funeral services were held Monday afternoon under the auspices of the miners' union. Interment was in Blairstown cemetery.

Roca Marrapodi was an old timer of the district and had been in the employ of the West Canadian company at Bellevue for four years. He was particularly well known among foreign born citizens and was greatly liked among his fellow workmen. He was thirty-two years of age and single.

A pathetic circumstance in connection with the death is that the victim of the accident expected to leave for the old country after next pay day to be married.

## NEW TRAIN SERVICE

It is reported that at last the accommodation passenger train, giving a day service which has been much talked of at numerous times and which it has been several times announced would be put on, is to enter service. It is stated the train will be put on next week and that in place of the present local, which is a mixed train carrying through freight and a baggage car and coach, the train will be strictly a passenger train and will run between Cranbrook and Lethbridge instead of Cranbrook and Macleod as at present.

It is further understood that the present mixed train or local between Lethbridge and Calgary will be discontinued and that the Calgary connection will be by means of a local between Macleod and Calgary connecting with the accommodation train. The schedule of the new train has not been received at the local station but it is said that the running time will not be far from the time of the present local.

People along this section of the Crow will hope that the report is this time authentic as such a service would undoubtedly be a big convenience to a large number of people insuring as it would, a direct connection to Calgary and enabling persons wishing to do business in Calgary, to be certain of getting through without the over-night wait at Lethbridge. It would also serve the local traffic between Lethbridge and Cranbrook considerably better than the present service.

It is not stated whether there will be any change in the time card as regards the regular passenger trains.

## GRAND UNION HOTEL COLEMAN, ALBERTA.

### THE RESULT.

Of the result of the federal election held Monday last not enough is known at the time this page goes to press to state definitely what will be the standing of the two parties in the next parliament but enough is known to afford assurance that the majority of the liberal government will not be far from that of the last parliament and that the nation is to be congratulated upon the return to power of that great administrator, Sir Wilfrid Laurier, insuring a continuance of a safe and sane and genuinely business government for another four years.

The pertinent fact in relation to the result is that the great majority of the people of Canada did not believe the charges of dishonesty and corruption which constituted the only platform upon which the conservative party went to the country and by their votes evidenced their displeasure with the sort of politics which can find no better ground for asking support from the electorate than baseless charges of corruption, slander and character assassination. It is earnestly to be hoped the rebuke to this sort of campaigning has been sufficiently strong to deter any party from attempting to carry an election on the strength of such charges until ground is afforded thereby for the proving of the charges in the proper way in parliament for it is not believable that if the charges of misconduct and of every other crime in the calendar short of murder that were made, were true in any considerable degree, any government could have been returned by so triumphant a majority.

While it is deeply gratifying to the government and in no less degree to the people of the country in general who supported the government, it would probably have been better had the majority been smaller, that is, it would be better if there is anything in the theory held by a large class of people that governments are at their best when they have but a good working majority, still it is good to have it brought home to us so emphatically that the vastly greater number of the people of Canada still retain the good old fashioned ideas of decency and demonstrated the fact by refusing to permit their confidence in such men as compose the government to be shaken.

In passing, it may not be amiss to observe that Sir Wilfrid Laurier may profit and insure the perpetuation of liberalism in the government if his see is to that the cause of soap from which the opposition succeeded in fomenting its boghead of suds be so completely eradicated as to leave no opportunity for a repetition of the scandalous and disreputable practices which characterized the recent campaign.

Locally, the result was not all that might have been hoped for. Mr. Herren is returned and will sit as our official member at Ottawa while Mr. McDonald remains our unofficial member at home and must transact all our business with the government at Ottawa while another receives the honor and the remuneration. And the constituency cannot hope to receive the benefits which should come from representation in parliament for the reason that the country has gone more pronounced in favor of the policies of the liberal party and the policies which Mr. Herren will advocate cannot for that reason be expected to prevail, being as they will be, the antithesis of the policies which the people of Canada have declared by an overwhelming majority, xie west for the nation.

Dated at Edmonton this 8th day of October, 1908.

Jno. STOCKS,  
Deputy Minister of Public Works.

## SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

A few numbered section of Dominion Lands Act, Saskatchewan, Alberta, Manitoba, and the Northwest Territories, and the homesteads by any person who is sole head of a family or may be in the case of a widow, to the extent of one-half of the land, and the same may be made personally at the land office for the district to which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following three methods:

(1) If the settler has his permanent residence on the land, he must make a declaration of his homestead, the requirements as to which are to be met by residence upon the land.

(2) If the settler has his permanent residence elsewhere, he must make a declaration of his homestead, the requirements as to which are to be met by residence upon the land.

(3) If the settler has no permanent residence, he must make a declaration of his homestead, the requirements as to which are to be met by residence upon the land.

Each declaration of intention to apply for patent.

W. W. COOPER,  
Agent of the Minister of the Interior.

At Coleman, Alberta.

## GRAND TRUNK PACIFIC AND PRINCE RUPERT

The B. C. government has announced the arrangements with the Grand Trunk Pacific for the improvement of Prince Rupert. Its salient points are that the government will spend \$200,000 in sidewalks, plow roads, sewers, three fourths of which will be refunded by the railroad. The engineers will get out plans forthwith when tenders will be called for.

As soon as the surveys are completed, the government will select its holdings after which another conference will fix the price of lots.

No definite arrangements as to sale of lots have been arrived at, but it will probably be by auction, and after May 1 either party is at liberty to sell its holdings. The government and railroad however, intend to act together in the matter.

Governor-General was Game.  
S. E. Oliver of Proctor, who was in the city last Tuesday, has a nice story to tell about Earl Grey's trip across the divide to Windermere. "There were four of us out. We sent back the escort and the cook," said Mr. Oliver, "and we just rongued it. We had no plates, and we all ate out of my pan, the governor-general taking his share of eating like the rest of us and believe me, he could make a living as a cook anywhere. It was a hard tramp but I excellency stood it as well as the younger members of the party." —Cranbrook Herald.

The Canadian Metal Company, Ltd., Nelson, B.C.

FRANK,

ALBERTA.

## Frank News in Brief

Alex Goyette, dealer in furniture and wall paper.

For Sale: Cheap—Driving team, buggy and harness. Apply to Mr. W. H. Chappell, Bellevue.

W. J. Budd of the Foster-Montana Cement company, visited The Pass this week.

Bert Hargraves of the S. J. Watson confectionery store, visited Lethbridge this week.

E. Heathcote, district coal mine inspector, was in the district this week to investigate the accident in the Bellevue mine.

J. A. Johnson, superintendent for the Canadian-American company, made a business trip to Calgary this week.

The San Francisco opera company, said to be an exceptionally strong organization, will appear at the Coleman opera house the evening of Nov. 2nd.

The car supply situation shows some improvement and although it is not independent of the requirements of the mines, it is more satisfactory than for some time.

The business of the government's long distance telephone service has increased to such an extent that it has become necessary to string an extra wire between Calgary and Macleod. The work of putting up the wire is now in progress.

The West Canadian Collieries had a rather serious accident happen to the handling plant at No. 1, Little Macleod. The gear box became off in the absence of the engine man, the result that the triple engine "ran away" and was badly broken up. A reserve engine has been coupled up to keep the triple running until repairs can be made.

A reward of \$2,000 will be paid for evidence that will lead to the conviction of the person or persons who about the 1st of October 1904, last, murdered a valuable man by stabbing him in the back with a knife or other sharp instrument, while said animal was grazing in my pasture.

A. Wardman,

Gillingham.

A. O. Adams of the Carbon Hill Coal company is in town this week and exhibited some samples of galena ore which he stated were found on the eastern slope of the main range. The ore was exceedingly rich and if investigation should develop that it exists in any considerable quantity the find will mean a great deal to this section of country.

The next sitting of court in Frank will be held January 14th.

Mrs. T. B. Martin left Tuesday evening for Medicine Hat to visit friends.

T. B. Martin returned the last of the week from Creston where he purchased a tract of fruit land.

Major and Mrs. Burnett, father and son of T. M. Burnett of Bellevue spent Sunday last as guests of A. V. Lauzon.

Austin Campbell, formerly a well known miner of Frank but who is now ranching near Cowley, has been as Dr. Macleod's hospital during the week. He had an arm broken by being kicked by a horse.

Corporal Askey's period of service in the mounted police expires next Tuesday. He has applied for re-inlistment but is undecided as to whether will sign on or engage in busi-

Mrs. Anna W. S. Naples, Alta., writes: "Received the Oxydor and find it a source of great relief although I have had it hardly a month now. Last night I slept and rested better for weeks and my bowels have moved regularly every morning while I used the Oxydor during the night."

My general health is greatly improved. For years I have been compelled to take a bath every day and been subject to severe headaches and nervousness, but find them all disappearing and how thankful I am. My children are ten years younger, and I was just sixty-nine years old the 6th of May."

364 St. Catharines St. West. Montreal Quebec.

To make fortune out of the future you must put something into the present. Gold and silver are the best investments.

Agents wanted to sell prospectuses for sale fruit lands and timber land in British Columbia and sub-divisions, acreages, &c.

Gold Company pay high dividends all over British Columbia.

**BRITISH COLUMBIA ILLUSTRATED**  
Containing over 100 views, post paid. No stamp.

Nothing Risked, Nothing Gained. Nothing Ventured, Nothing Won.

**SPLENDID OPPORTUNITY TO INVEST**

The richest men in the world are investing in British Columbia copper-gold and silver mines. Why can't you begin now? The greatest gold-copper discovery of the age is in B.C.

**BIG FOUR CONSOLIDATED GOLD MINES, Ltd.** Capital \$25,000.

Every dollar subscribed used in development of Mine.

**Special Offer**—\$10 per share, will answerly advance to \$1.00. Mines directly west of Le Roi and Le Roi no. 2 shares sold from \$6 to \$100, and Consolidated Mining & Smelting Co. Ltd. shares from \$100 to \$1,000. Uranium Park, a new mine, situated on our own, about 100 miles. Uranium Park will bring in \$10,000,000.00 dividends per year. Gold-copper mines in British Columbia paid large dividends. Big Four miners from \$5.00 to \$100.00 in gold, copper, silver, with 10 per cent in the treasury. Invest now and you won't regret it.

NOTICE.—Most of these mines sold for a few cents each, but are now capitalized and are paying big dividends. Big Four is an excellent investment. Big Four has received highest awards for richest gold-copper ore sent to St. Louis Exposition. Big Four has best dipper at Dominion Fair, New Westminster B.C. No less than 100 shares sold for cash, above value. These shares may be had on instalment plan, yearly contract, 15 per cent cash, balance monthly. Nearly two million dollars in property. Company has debts or liabilities. Send for illustrated Prospectus and Booklet. "Mining Up-to-date," will be in stamp.

## To Our Patrons

and the General Public of The Pass:

Owing to our increasing trade in The Pass we have decided to place an "Ad" in The Frank Paper and let our friends and the general public know from time to time what we have to their advantage.

We claim to have the best Blacksmith and Carpenter Shops West of Winnipeg.

We have between four and five thousand dollars worth of machinery in these shops and everything, even to blowing the fire, is run by steam. We have fine blacksmiths and two wheelwrights. The combined result is that we are able to turn out work on the very shortest notice and our work is excellent. Trust us with your business and it will receive appropriate treatment. The next time we will tell you something about our furniture and machinery.

Yours for Business,

**Scott Bros. Foster Creek,**
